# ***The Contributing Factors of the Retention of Math Corps Cleveland participants***

College of Sciences and Health Professions

**Student Researcher:** Saiida Bowie-Little

**Faculty Advisor:** Carol Phillips-Bey

## **Abstract**

The Math Corps at Cleveland State University provides children with a sense of family and peer development, high standards and expectations, and challenging mathematics that incorporates cooperation as a skill of strength. The Math Corps at Cleveland State University Summer Camp has been operating for 7 years and has seen a return of participants, where participants are people who have applied, been accepted, and attend the program (in any role that Math Corps at Cleveland State University offers). This paper serves as an investigation of why participants have returned (or not) to Math Corps at Cleveland State University over the course of the Summer Camp operation.
