CSU Cleveland-Marshall College of Law Virtual Care Package For You!

Welcome to CSU Cleveland-Marshall! In choosing law, you have chosen a noble profession dedicated to serving those in need. But as you embark on your journey forward, we know that you, like all members of the C|M|LAW community, face unprecedented challenges during these difficult times. Throughout the semester, you will receive virtual care packages like this. Please know that C|M|LAW faculty and staff want you to thrive during your law school years and beyond. We truly are your law school for life.

But First COFFEE

We are lucky to have many amazing local coffee shops near the law school, so you can fuel up for a study session while supporting small business owners. These shops also offer home delivery of their great coffee!

[Rising Star Coffee Roasters](#), located in the Old Arcade and in several other locations around NE Ohio, has delicious and unique matcha and cold brew drinks.

[Phoenix Coffee](#) is located on East 9th and has several other locations around the city. For a delicious non-caffeinated treat, try their lavender lemonade.

[Erie Island Coffee's](#) CSU and East 4th locations are currently closed but we hope they will be back soon! You can also get their delicious coffee at [Constantino's EY Café](#) in the Ernst & Young Tower on West 9th.

Our Great OUTDOORS

Take advantage of our beautiful Fall weather and study outside! In case you feel like you need an excuse head outdoors, [research](#) has shown that studying the same material in two different places can actually improve retention.

A short drive (or bus ride) away is beautiful [Wade Oval](#), a 7-acre green space uniquely situated amid many of the most important cultural institutions in the city, including the [Cleveland Museum of Natural History](#), [Cleveland Botanical Garden](#), and [Cleveland Art Museum](#).

Less than 4 miles from the Law School, you can study on the beach at [Edgewater Park](#) (picnic tables also available!)

Enjoy beautiful views of the Cleveland skyline and Lake Erie at [Voinovich Bicentennial Park](#).

Cover up in STYLE

Make a fashion statement while abiding by the CSU mask mandate with masks from these shops.

[Jennifer Akese-Burney's](#) beautiful masks feature three-layer cotton prints inspired by the designer's home country of Ghana.

Support local businesses by snagging a mask from one of these great Cleveland shops: [GV Art + Design](#) ; [Only in Clev](#) ; and [We Bleed Ohio](#).

Yellowcake offers a wide variety of stylish masks with every purchase supporting their larger mission to alleviate social issues and environmental challenges here and abroad. Don't miss [United States of Ohio!](#)

Music is ENERGY

-KURT COBAIN

Turn to music, instead of caffeine, for energy with these recommendations from the C|M|LAW community!

To start us off, C|M|LAW 2LE Brandy Davis has crafted a Welcome ILs [playlist](#) for the ages!

Nick DeSantis, Director of Academic Support, says his go to for happy music is Jack Johnson's gem [En Concert](#). The songs on the album were recorded live during the "Sleep Through the Static World Tour" in 2008. Not only is the music great, it's for a great cause: 100% of the tour profits, and profits from the album, fund the Kōkua Hawaii Foundation and the Johnson Ohana Charitable Foundation to support environmental art, and music education around the world! For more Jack, check out these [videos](#) from Kōkua Festival 2020 - Live From Home. The online festival brought people together from all over the world in celebration of the 50th Anniversary of Earth Day.

Librarian Brian Cassidy challenges you keep still while listening to Ray Barretto's [Acid](#), a classic Latin jazz album that really stands the test of time. Born in New York City in 1929, Barretto was a member of the early generation of Puerto Ricans who moved to the mainland after citizens of the colony were granted U.S. citizenship by the Puerto Rican Federal Relations Act of 1917 (Jones–Shafroth Act). Growing up in Spanish Harlem and the South Bronx, Barretto was exposed to varied musical styles in both English and Spanish. The title of the album Acid

shouldn't fool you--it's not a psychedelic rock album! *Acid* is actually jubilant blend Hispanic music styles and R&B. Take a listen to this album to hear a musician at the peak of his powers.

Librarian Beth Farrell recommends the contagious (in a good way!) energy of [Dreamland](#), the new album from UK indie-alt rock group Glass Animals. This pandemic project also has special meaning because it's their first album since their drummer recovered from a near-fatal bike accident. You'll feel like you can run a marathon (or at least study another hour) after listening to "Tokyo Drifting" (extra shot of energy provided by American rapper Denzel Curry) and "Your Love (Déjà Vu)" (note: some explicit lyrics).

You are a light.
You are the light.
Never let anyone —
any person or any
force — dampen,
dim or diminish
your light.

-John Lewis
