The Use of iPad Pros as an Assistive Device in Occupational Therapy

College of Sciences and Health Professions

Student Researcher: Lana Osorio

Faculty Advisor: Glenn Goodman

Abstract

RESEARCH QUESTION: How can IPADS be used as an assistive devices for children and adults with disabilities?

A literature review was conducted using the keywords, in order to find articles about using iPads as a therapeutic device. As a result it was concluded that iPads due to its versatility and popularity has made great progress as a therapeutic tool. Apps recommended as having a therapeutic purpose were also purchased and installed. The iPads will be used as a learning device amongst the Health Science Programs at Cleveland State University.

KEYWORDS: iPad, assistive technology, occupational therapy, tablet, allied health, assistive therapeutic devices.
