AND TO ALL THE CHILDREN OF CLIFTON PARK

At the time Vignettes of Clifton Park, 1970 was printed there was some unhappiness because not every house in the Park was included in that first effort. People misunderstood. It was not the author's intention to list and "interview" every house. Now, here is recognition of the houses in Clifton Park and the Lagoon.

* * *

Research of this second project started in 1971-1972 and again in 1983 to December 31, 1995. All photographs were taken in 1985. This explains missing house additions and landscape changes.

The purpose of this book is to simply list owners of the properties, a genealogy of the homes so to speak.

* * *

NOTE: The information contained here was obtained from research of the public records. The author makes no warranty, either expressed or implied, as to the accuracy of any of the enclosed. This book is not intended to be used as a legal reference or title abstract.

Also note: There were found in the County plat book entry listings of banks and other financial institutions. These were omitted because the author wanted to list only the names of the families.

The roads of the Park and Lagoon are listed in alphabetical order. Homes are then in numerical order. Stars on maps indicate the area which is being talked about. Parcel numbers and pages numbers were obtained from the County plat book #311, Lakewood.

Beginnings

Clifton Park is in the northwest corner of the City of Lakewood, Cuyahoga County, Ohio. It is a residential section bounded by Lake Erie, Rocky River, the Norfolk Western Railroad* and Webb Road.

Early owners of Clifton Park lands were — Judson Canfield, Nathaniel Church, David Waterman, James Johnson, Timothy Chittenden, Penuel Cheney and two branches of Wrights. Through their heirs most of the land was bought by Ezra Nicholson. Nicholson offered his acreage to the City of Cleveland but was turned down as being too far out in the country.

Eventually the land was bought by the Clifton Park Association whose members were — Daniel P. Rhodes, Elias Sims, George W. Jones, John H. Sargent, George Hartnell, Ezra Nicholson, Josiah Barber, John Spalding and Thomas Dixon.

Articles of Incorporation were written in 1866/69. The Association had the idea of a huge resort. They created picnic areas, built two hotels — Lake House and Murch House. Also built was a narrow gauge railway, The Rocky River Railroad nicknamed "The Dummy." A stone rubble pier was constructed by The Army Engineer Corps.** Paralleling this was a wooden pier for mooring pleasure yachts. The wooden pier may have preceded the stone pier.

On the Beach was a water works. An intake pipe in the Lake took water into the Pumphouse which still stands on the Beach. There was a water tower at Clifton Road and Arlington Road. The Pumphouse is now the oldest building within Clifton Park.

The heyday of Clifton Park under the Association was from 1869 to about 1881. The Dummy Railroad right of way was bought by the Nickel Plate Railroad and the idyllic sense of Clifton Park was dissolving. The Association turned to the plan of a residential area. A landscape engineer was engaged in 1894 and the Park roads were laid out as we know them today with the exception of Clifton Boulevard extending through the Park which created the cul-de-sacs.

* now Norfolk Southern Corp Rwy.

** Should read, Army Corps of Engineers.

Ninety-four house lots of an acre more or less became the new Clifton Park.

In 1899 the Clifton Park Association was sold to another group of men to be known as the Clifton Park Land and Improvement Company. The members were — Arthur L. Stone, Harry L. Vail, E. C. Pope, Howard H. Burgess, Charles E. Ferrell, John G. Jennings, Elmer E. Robbins, Frank C. Case and Clark T. Hasbrouck. In 1902 another allotment was made and the 94 lots were cut into about 227 smaller lots. This arrangement stayed until 1962.

THIS TEXT AS BEEN TAKEN FROM
VIGNETTES OF CLIFTON PARK, 1970

The Roads of Clifton Park

Beach Road and Lagoon

Captain's Cove

Clifton Boulevard

Clifton Park Lane

Clifton Road

Forest Road

Lake Point Drive

Lake Road

Webb Road

West Clifton Boulevard

West Clifton Road

West Forest Road

Why is there one house on Webb Road, two on Clifton Boulevard, and three on West Clifton Boulevard which are all in Clifton Park?

When the reallotment was made some lots, the above six, ended up on these outside streets.

Beach Road and Lagoon

Original House which stood at 17884 Beach Road

Clifton Lagoon

Many of the Boat Houses were built in the late 1920's. Through the years some have been rebuilt and remodeled, four were torn down and built again. Two burned and were replaced.

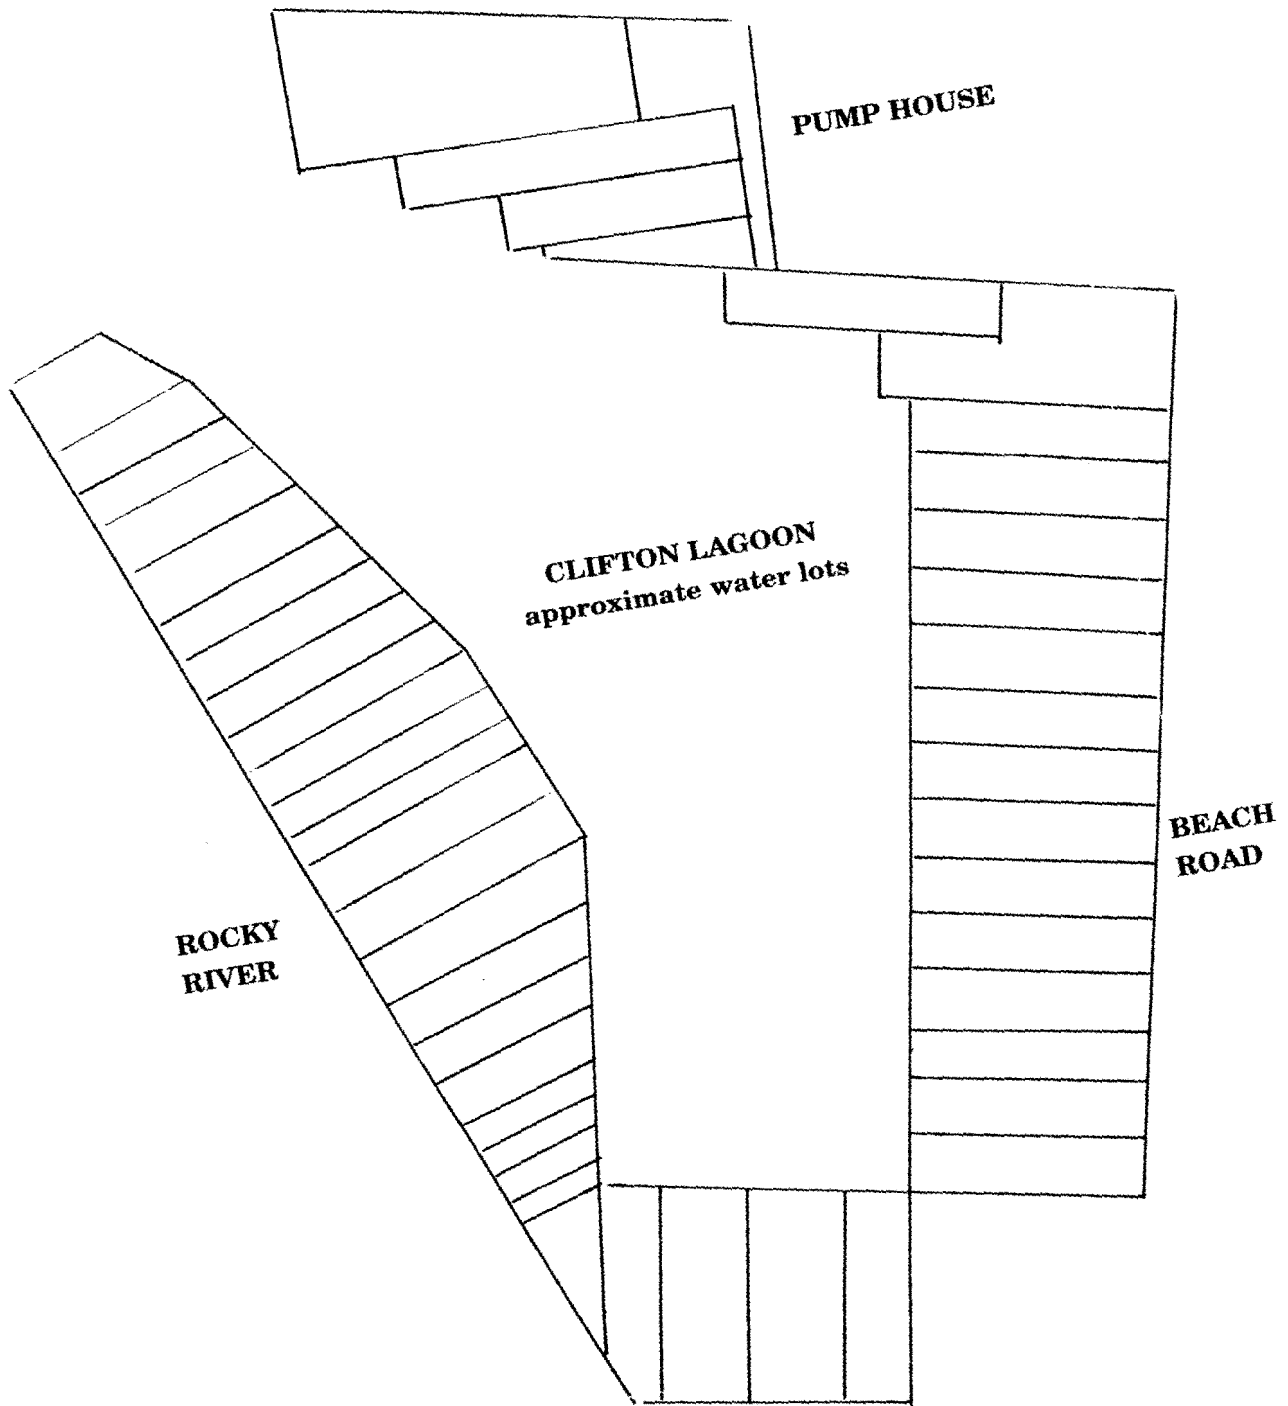

The house numbers were changed through the years. First there were mail boxes at the top of Beach Road hill with the two digit numbers that were on the boat houses.

In 1953 the houses were numbered 178 — and mail delivery to the homes began. In May of 1973 the numbering was established as it is today, 1987. Every Lagoon parcel has a number in the event a house would be built where there is now only dock space.

From March 26, 1912 and to date the Clifton Park Trustees hold in trust for the lot owners of the Park the parcels of the Lagoon which include — Clifton Beach, Grove picnic area, tennis courts, platform tennis court and the land along Rocky River. Parcels 1, 5, 6, 21, 22, 23, 48, 49 and 50.

840 Beach Road

Pumphouse
Clifton Park
Trustees

The pumphouse on the Beach is the oldest building within Clifton Park. It has been a work center for Beach crews, storage for sailing gear in the past and home for caretakers of the Beach. Rockport Pumping Station was built about 1873. An intake pipe was 190 feet from shore and the house mechanism pumped water into a well adjacent to the house and into a water tower. The tower stood where Arlington and Overlook Roads merge off Clifton Road. Boys of the early 1900's remember the huge wheels of the pumping structure. They also remember the great place it was to play and to get into trouble. Water was pumped from 1873 to 1895 when Cleveland began pumping water into Rockport/Lakewood.

The above property is not a part of Clifton Park. The original lot at 17884 Beach Road included the above parcel. When the "whole" lot was owned by the Stowe's a 100 x 100 foot lot was created for the life use of Henry and George Gerlach. There was a shack on that portion of the proptry. The Gerlachs who were the Beach caretakers lived in the shack.

May Kleinsmith (Mrs. George)

George and May Kleinsmith came to Clifton Beach in 1931. Mrs. Kleinsmith has seen many changes on the Beach. The following is in her own words:

"In 1931 the Pumphouse was used for storage, a great accumulation of odds and ends from the sailors around the Lagoon. When the Kleinsmiths were asked to substitute for that greatly loved George Gerlach who was obliged to have surgery that year, they cleared out one part of the Pumphouse, the side which used to house the pump of the old Rockport Pumping Station.

We put a table, two beds and a desk of old times in this area. Along with a cold water faucet and a two burner kerosene cookstove to meet food needs was all that was necessary for the Beach season. The Kleinsmiths migrated to the city for the first two sessions [winters].

When the gas line was laid around the Lagoon it was possible to have a gas stove and heater in the Pumphouse for more permanent living arrangements. The year around living at the Beach led to the disposing of the discards in the other part of the Pumphouse. After nineteen years of the one cold water faucet, the powers-that-be decided to renovate the living quarters. This resulted in a three room and bath apartment. Then the Kleinsmiths joined the top in living.

At the time the Bathhouse was renovated, it brought some keen regrets to the Kleinsmiths as they felt the old Bathhouse had a wonderful atmosphere which would be hard to duplicate. However, the renovated Bathhouse still had some wonderful memories. It had a dance floor glassed in on the second floor, also a large area not enclosed. The first floor had the big fireplace in an area which was glassed in; a screened porch; and another large porch across the front. A fine place to sit and enjoy the sunsets which old Lake Erie can put on for our Beach steadies.

When the Bathhouse [across the road] burned down the Kleinsmiths were heartsick. The Lake and the Beach meant so much to them. The people were their family and still are to the remaining Kleinsmith.

One really rugged experience was the violent early spring storm when the Lake waters came over the walk, over the road and into the Lagoon. The receding waters carried away most of the Beach, the trees, and the equipment. Mr. Kleinsmith managed to tie tables #18 and #20 to some trees that held. He had to put the tables on the Lagoon side as there was nothing to set them on at their original location on the Lake side.

Another time on two separate occasions and years apart were seiche waves.* Water went over the Beach. It was the most weird experience to have a single wall of water ten feet high come from the Lake and cover the entire Beach surface. When it subsided it left fish swimming in the ball ground along with a collection of debris. An almost unbelievable experience.

The tornado came in 1956 and more equipment and trees were lost. One year the cold built up the ice in the Lagoon and River to more than three feet deep and the Lake was frozen as far as you could see. There was a sudden spring thaw which brought the water from Rocky River uplands flowing over the ice. It covered everything and flooded the Lagoon houses to the lower level. When the ice finally cracked, the Pumphouse yard had huge ice cakes up to the door and two inches of water in the Pumphouse. What a welcome sound to hear the ice at the mouth of the River crack and break up. This allowed the water to subside. The ice cakes in the yard stayed awhile.

Our Beach family are very dear to us and we have enjoyed the many friends who meant so much to us and made life worthwhile. We have had to part with some dear friends, but the second and third generations are still keeping life interesting, busy and happy.

The Lake retains its fascination and all its moods. Never are two days alike. Sometimes wild and then quiet and soothing."

From an interview with Mrs. Kleinsmith August 23, 1967

George Kleinsmith preceded Mrs. Kleinsmith in death. She stayed to carry on all Beach business until 1974.

B.R.G.

*A seiche is an oscillation of the surface of the lake or a land locked sea. Time varies from a few minutes to several hours.

[illegible]

Captain's Cove

Captain's Cove is a realloftment of 17896 Lake Road. It was the home of Harry Coulby who was president of Pickands Mather Company and The Pittsburgh Steamship Co. The stones in the wall outlining the proprty were hauled from Duluth by lake carrier in 1904 at the cost of \$50,000.

When the house fell victim to a fire, the idea of cluster dwellings developed. There are six homes within the allotment.

Clifton Park Lane

Clifton Park Lane

Mabel Hanna Parsons built a summer home at 17888 Lake Road in 1911. The property comprised three lots.

When the Clifton Boulevard extension was cut through Clifton Park in 1961-1962, it took fifty feet of the original property on the westerly side. The owners at the time were Mr. and Mrs. Rene J. Morel. They decided on a reallocation; razing the house and building four new houses.

Before the old house came down, there was a public tour through the house with proceeds donated to the American Cancer Society. The house was dismantled and usable items were sold: windows, doors, hardware, electrical fixtures, etc.

The Morels built their house first. They kept the fountain which stood in the dining room of the original house. The fountain stands in front of the house at 17888.

* * *

Perhaps of interest, Mabel Hanna Parsons was a daughter of Marcus A. Hanna. A well known civic leader and president-maker of William McKinley U.S. President 1896 and 1900. The architect who designed and built the Parson's house also designed the houses at 18181, 18183 and 18185 Clifton Road for some of the Parson's household staff.

Home of Mr. Harry A. Parsons, Clifton Park

Winona Cornell Hamm tells of the charming encounters with Mabel Hanna Parsons. Winona's father was appraiser of diamonds for Cowell and Hubbard. Through this connection he made acquaintance with M. H. Parsons. She adopted the Cornell family.

When Winona went off to college Parsons outfitted Winona's college room with lovely accessories. When Winona married she was given a lovely cloisonne lamp which she treasures. M. H. Parsons gave Winona's new born son a sterling silver child's place setting plus dish, cup and bowl.

Winona said Mabel Hanna Parsons wanted to buy an automobile for Mr. Cornell and the offer to live in Clifton Park in a rent free cottage. Mr. Cornell had to refuse due to business etiquette.

From a chat with Winona Hamm, 1989, B.G.

Lake Point Drive

Lake Point Drive

Lake Point Drive was created from lot No. 18 which was the first surveyed and recorded lot when Clifton Park became a residential development in 1894.

Leafie Sims Starkweather and her husband, William Starkweather, owned lot No. 18. They built a house which was enlarged through the years. Leafie was the daughter of Elias Sims, one of the nine men who developed the Clifton Park Association. William Starkweather was the son of Samuel Starkweather, a Judge of the Court of Common Pleas 1851 and the Mayor of Cleveland 1857-1858.

Clifton Park Trustees

3/26/1912

The Park Trustees set this lot aside for the residents of the Park and the Lot #17828 Lake Road. The two side by side lots were called Cliff Park. It was a small "park" from which to watch the sunsets, etc. Through a resident signed petition the lots were released for sale.

17866 Lake Road

Parcel 90 Page 4

17866 Lake Road is part of the original lot #18, the first surveyed and recorded lot when Clifton Park became a residential development in 1894. Most likely there were small dwellings for summer on the lot before 1894.

Leafie Starkweather and her husband William owned the #18 lot and built a house which was enlarged in later years. Leafie was the daughter of Elias Sims who was one of the nine developers of the Clifton Park Association. William was the son of Samuel Starkweather, a Judge of Cleveland Court of Common Pleas, 1851-1858.

The Clifton Club

Architect—Charles Bacon Rowley, 1950

Fire destroyed the original clubhouse in January 1942. The social club was formed in 1902 for west side families who were settling further west.

The clubhouse was built in 1904 and this began years of happy memories. Weddings, receptions, musicals, dancing and dining are remembered by hundreds locally and far away.

The new clubhouse was opened to its members in 1950 and the traditions were continued once again.

Cleveland R. Cross and Ruth Cross	House built	9/13/1917
Roy C. Ossmun		6/15/1943
Josephine M. Ossmun		7/27/1943

The house stood at #1112 West Forest Road. In 1962 the house was moved to make way for the Clifton Boulevard extension. To accommodate the house in the new location a new lot was created from portions of two lots. The Clay A. Stier house was razed #17891 Lake Road (now the Blvd. extension). The Glenn Barth east side yard and part of the rear yard plus most of the eight foot width of Shady Lane was used. Shady Lane was a paved public walkway for Park residents. Shady Lane ran from Forest Road to Lake Road.

Owners of the Clay H. Stier lot:

Ella Snider		5/18/1904
George W. Cady	House built	6/4/1907
Amanda L. Cady		3/15/1909, 7/11/1911
Mary Elgin Curtis		7/5/1918
Clay H. Stier		12/28/1945

House razed 1962

The house at #1112 West Forest Road was moved in 1962 to present location, #17893 Lake Road.

*Houses were not destroyed for highway but by choice of owners who created the suballotments.

Houses Destroyed by Fire Lagoon and Park

1. Clifton Beach Bathhouse—1956. Rebuilt 1957
2. #860 Beach Road, Lagoon—Dec. 31, 1983 and June 21, 1984. Beach house rebuilt
3. #888 Beach Road, Lagoon—Nov. 23, 1951. Rebuilt. Two other boat houses were affected and repaired.
4. #18127 Clifton Road—Feb. 3, 1961. House repaired but later was razed as the highway was eminent.
5. #18153 Clifton Road—June 30, 1987. House was badly damaged but repaired and reoccupied.
6. #17850 Lake Road—March 1, 1967. Fire and gas explosion destroyed the house. New house built on same site, 1967.
7. #17884 Lake Road (Clifton Club)—winter of 1942. House destroyed. New clubhouse built 1950.

* * *

The sands of time shift and time has changed Clifton Park too, however it is still a stable residential community.

Some homes have had a faster turnover. Most have had very few owners since the 1902 reallocation. It is really the same play, same stage with a few new players.

Following the publication of "Vignettes of Clifton Park" in 1970, many neighbors whose homes were not included in that first book (and who had pointedly mentioned the omissions) caused Mrs. Gehring to consider a second book. Begun in the 70's and set aside for many years, it was reborn in 1993 to include histories of all the homes in Clifton Park as well as all the Clifton Lagoon properties. Officially completed December 31, 1995, it is a splendid reminder of a gentler era and the beauty and tradition that is Clifton Park. Mrs. Gehring is currently engaged in an ongoing study of her family genealogy and has traveled to England and Scotland to "walk the footsteps" of her Scots and English ancestors.
