BENEFITS ........................................... Christal Contini 405

The issues germane to law and health are often controversial and highly debatable. One
mission of the Journal is to provide a forum for hearing such diverse views. The views
expressed in the Journal of Law and Health are those of the authors of the articles and do not
necessarily reflect the opinions of the officers, trustees, faculty, alumni, or students of the
Cleveland State University or the College of Law. Contributing authors are expected to reveal
personal, economic, or professional interests that may influence the views taken or advocated
in their articles. Each author impliedly represents that such disclosure has been made.
