Formulating the Recipe (Methods)

The data for this study was primarily gathered from the websites of the 58 institutions that have ALA-accredited degree programs. Every institution was also individually contacted via email or phone to confirm the data collected from their websites. All programs but 12 looked over and confirmed the data gathered by the researcher; 2 refused to comment on the data and 10 did not respond to the inquiries. Data was also gathered from the most recent ALA Committee on Accreditation report (2014). All of the data was entered into a spreadsheet and cross-referenced to illuminate trends.
