The screenshot displays the EngagedScholarship @ Cleveland State University website. At the top left is the Cleveland State University logo. The main header reads "EngagedScholarship @ Cleveland State University" with navigation links for HOME, ABOUT, FAQ, and MY ACCOUNT. The left sidebar contains several sections: "Search" with a search bar and options for repository and advanced search; "Browse" with links to Collections, Disciplines, and Authors; "Author Corner" with links to Author FAQ and Submit Research; "SelectedWorks Scholars" with links to Selected Works Gallery, Create a SelectedWorks Profile, and Guide to SelectedWorks; "Links" with links to The Michael Schwartz Library and C|MLAW Library; and "Contact Information" with an email address ES@CSU Administrator. The main content area features a featured article titled "CSU Clinical Chemistry Students Present Research at National Conferences" with a photo of three students in a lab and a "View More" link. Below this is a grid of links for Faculty, Staff, and Student Scholarship; Theses and Dissertations; Conferences and Events; Open Educational Resources; Meet Our Scholars; Books; and Journals and Peer-Reviewed Series. At the bottom, it states "EngagedScholarship @ CSU is a service of the Cleveland State University Libraries" and includes a digital viewer interface showing a document from Mount Laurel, New Jersey, United States, dated 1968, titled "Romeo and Juliet" by Pasqualino De Santis, with a "Browse All Images" link.

Michael Schwartz Library Mission + OA

- ▶ **Library Mission:** We bring people and information together.
- ▶ **Purpose Statement:** Develop the urban academic **library of the 21st century** for the complete information support of all the university's academic programs so that all students become critical and effective information users.
- ▶ **Vision Statement:** The Library will be recognized as an accessible and exceptional center of research, learning, and creativity **focused on student success**. We will provide the best of contemporary and traditional research tools, unique local resources, and state of the art facilities to the CSU community and work to ensure that all its members are proficient information users. We will be leaders in developing and utilizing the talents of everyone who works in the library to achieve excellence in service to students and to our community.

Librarian Goals

Attend the Open Textbook Instructional Session

Attend the Open Access Conference

2014 OPEN ACCESS SYMPOSIUM

INSTITUTIONAL REPOSITORY DAY/OPEN ACCESS WEEK

Cleveland State University/Wright State University Joint Open Access Symposium

IF YOU LOVE YOUR SCHOLARSHIP, SET IT FREE: EMBRACING OPEN ACCESS AT CSU

Academic and research communities are invited to learn how open access maximizes and promotes their work, provides stronger ownership for researchers and authors, and ultimately, has far reaching benefits for academia and society as a whole.

Now in its eighth year, "Open Access Week" facilitates the growing movement toward increased discoverability, sharing, use and preservation of information .

Register [here](#) to attend this free Symposium.

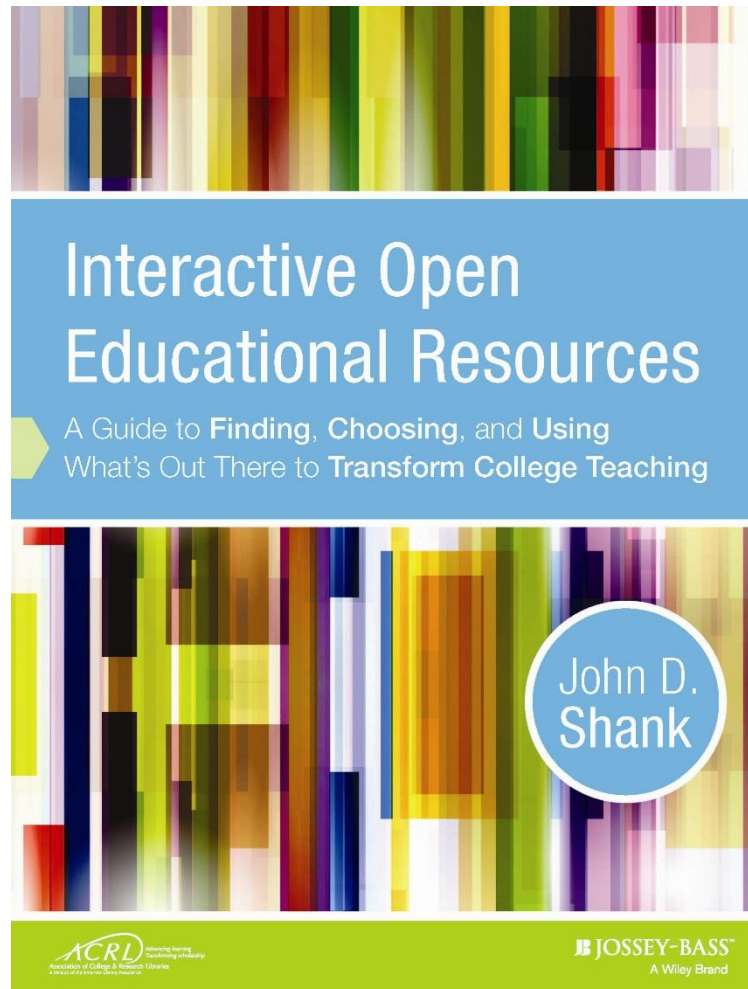

Parking

Visitors can park in the South Garage (SG), 2101 East 21st Street (\$2 for the first hour - \$1 per hour after; Max: \$10).

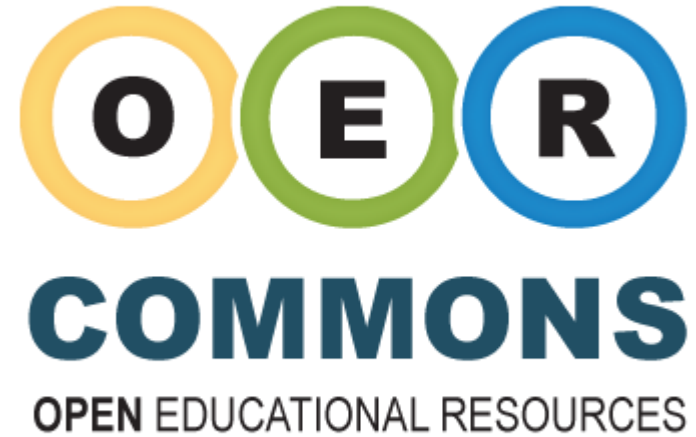

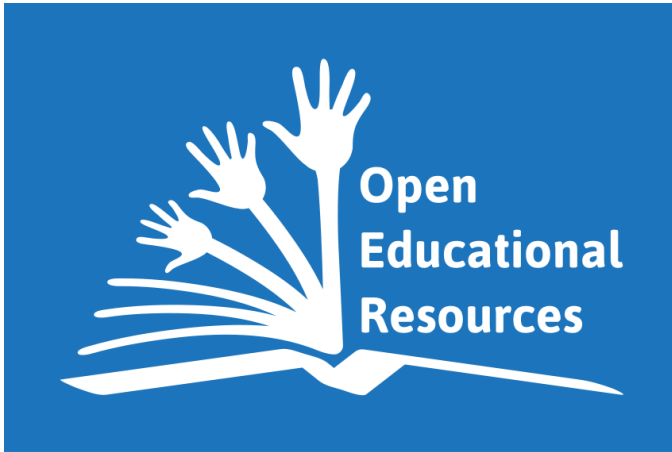

[Maps, Driving Directions, more parking information](#)

Continental breakfast will be served beginning at 9:00 a.m. in the Cleveland-Marshall College of Law Atrium.

Read *Interactive OERs: A guide to finding, choosing, and using what's out there to transform college teaching*.

Add OERs to subject research guides

Open Software: Home

[Home](#)[Productivity](#)[Image and Design](#)[Audio and Video](#)[Statistics and Analysis](#)

Welcome!

This guide is meant to provide the user with resources for a variety of projects. There is a wealth of high quality free and open software available, often times with similar functionality to more cost-prohibitive options. This guide is not attempting to make claims about these alternatives being higher quality than their alternatives, but only to provide them as option.

A Brief Word About Open...

Open-source software refers to software whose author's have made the source code available, and granted users the rights to distribute and edit freely, ie. an open license. Open-source does not translate to meaning free, but many open-source software projects are also free.

Alternatively, there are many free software available which do not have open licenses.

OPEN EDUCATIONAL RESOURCES

Open Educational Resources (OER) are high-quality, openly licensed, online educational materials that offer an extraordinary opportunity for people everywhere to share, use, and reuse knowledge (Hewlett Foundation).

Open Educational Resources created by Cleveland State University faculty are posted here in EngagedScholarship@CSU. You can find more OERs by visiting the sites below.

[OpenStax College](#)

OpenStax College is an initiative of Rice University and hosts a collection high-quality, peer-reviewed textbooks.

[Open Textbook Library](#)

Cleveland State University is a member of the Open Textbook Network which sponsors the Open Textbook Library. These books have been reviewed by faculty from a variety of colleges and universities to assess their quality. They can be downloaded for no cost, or printed at low cost.

[Teaching Commons](#)

The Teaching Commons brings together high-quality OER from leading colleges and universities. Curated by librarians and their institutions, the Teaching Commons includes open access textbooks, course materials, lesson plans, multimedia, and more.

[About us](#)

Make a difference in your students' lives with free, openly-licensed textbooks.

Textbooks every student can access and afford

Open textbooks are textbooks that have been funded, published, and licensed to be freely used, adapted, and distributed. These books have been reviewed by faculty from a variety of colleges and universities to assess their quality. These books can be downloaded for no cost, or printed at low cost. All textbooks are either used at multiple higher education institutions; or affiliated with an institution, scholarly society, or professional organization.

The Open Textbook Library is supported by the [Center for Open Education](#) and the [Open Textbook Network](#).

Textbook Affordability Small Grants

| | |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Criteria | <p>Applications will be judged according to the following criteria:</p> <ul style="list-style-type: none">• Total dollars saved (price of current course material costs X enrollment)• Articulated plan to assess impact and quality of student learning• Feasibility that others might adopt for other sections• Sustainability (how possible it will be to continue to use the new material(s) over a sustained period of time) |
| Project Types | <p>Adopt: Redesign your course to incorporate an existing open textbook as is or use other open course content to replace a traditional, high-cost textbook with a free, low-cost, or open alternative. (Grant of \$500; half up front/remainder upon completion of project.)</p> <p>Review: an existing open textbook found in the Open Textbook Library at: https://open.umn.edu/opentextbooks/Ourbooks.aspx#. Receive a \$200 stipend upon submission of review.</p> <p>Revise/Remix/Adapt: Remix an existing open textbook or other open education (OER) and/or create new open content to bridge gaps in available resources to enable a fully open course. New content may add missing chapters to existing open textbooks or create ancillaries such as quiz question banks, lecture slides, or lab manuals. Goal—to replace a traditional, high-cost textbook with an open textbook, articles, book excerpts, audio, or video that are open access or licensed through the Library. (Grant of \$1,000; half up front/remainder upon completion of project.)</p> |
