This large home was leased in 1907 by the newly formed Standard Club, modeled after the successful Jewish social club in Chicago. Renovations and a addition with sleeping rooms was completed in 1921 under the direction of Architect Harry Cone. The building would also be occupied by the by the B'nai B'rith organization until at least 1923.

At an unknown date the building were raised and in 1946 a diner car known as American Diner was placed on the property. The first manger was Kenny King, who would later establish a restaurant chain that bore his name thought N.E. Ohio. The diner car was removed in 1955, and is under renovation. Today the property is vacant lot.

In 1906 Cleveland changed all north-to-south named streets to numbered streets along with changing the address numbers to a new format. From the center of Public Square heading east, even numbers are on the south side of the street and odd numbers are on the north side. This is reversed on address west of Public Square.
