"Let's Go Shopping at the Square" Cleveland's Leading Downtown Department Stores: A Business Legacy

Richard Klein

This book is a tribute to the eight major downtown Cleveland department stores and their many loyal customers. For over 150 years, these large stores dominated the local retail scene. They represented exciting places that not only provided a full range of goods and services, but also adventure every time their customers visited.

Haymarket to the Heights: Orthodox Synagogues from the Haymarket to the Heights

Joffrey S. Aloni

This document traces the movement of the Orthodox synagogues, or shuls, established in the Haymarket area as they migrated to the Heights.

OPEN EDUCATIONAL RESOURCES

Open Educational Resources (OER) are high-quality, openly licensed, online educational materials that offer an extraordinary opportunity for people everywhere to share, use, and reuse knowledge (Flora Hewlett Foundation).

Open Educational Resources created by Cleveland State University faculty are posted here in EngagedScholarship@CSU. You can find more OERs by visiting the sites below.

- **OpenStax College**
  OpenStax College is an initiative of Rice University and hosts a collection of high-quality, peer-reviewed textbooks.

- **Open Textbook Library**
  Cleveland State University is a member of the Open Textbook Library, which sponsors the Open Textbook Library. These books have been reviewed by faculty from a variety of colleges and universities to assess their quality. They can be downloaded for no cost, or printed at low cost.

- **Teaching Commons**
  The Teaching Commons brings together high-quality OER from leading colleges and universities. Curated by librarians and their institutions, the Teaching Commons includes open access textbooks, course materials, lesson plans, multimedia, and more.

Textbooks every student can access and afford

Open textbooks are textbooks that have been funded, published, and licensed to be freely used, adapted, and distributed. These books have been reviewed by faculty from a variety of colleges and universities to assess their quality. These books can be downloaded for no cost, or printed at low cost. All textbooks are either used at multiple higher education institutions; or affiliated with an institution, scholarly society, or professional organization.

The Open Textbook Library is supported by the Center for Open Education and the Open Textbook Network.

Textbook Affordability Small Grant

| Criteria | Applications will be judged according to the following criteria:  
|          | - Total dollars saved (price of current course material costs X enrollment)  
|          | - Articulated plan to assess impact and quality of student learning  
|          | - Feasibility that others might adopt for other sections  
|          | - Sustainability (how possible it will be to continue to use the new material(s) over a sustained period of time)  

| Project Types | Adopt: Redesign your course to incorporate an existing open textbook as is or use other open course content to replace a traditional, high-cost textbook with a free, low-cost, or open alternative. (Grant of $500; half up front/remainder upon completion of project.)  
|              | Revise/Remix/Adapt: Remix an existing open textbook or other open education (OER) and/or create new open content to bridge gaps in available resources to enable a fully open course. New content may add missing chapters to existing open textbooks or create ancillaries such as quiz question banks, lecture slides, or lab manuals. Goal—to replace a traditional, high-cost textbook with an open textbook, articles, book excerpts, audio, or video that are open access or licensed through the Library. (Grant of $1,000; half up front/remainder upon completion of project.) |
