

Join the Cleveland State University Michael Schwartz Library for free Open Access Week events from October 24 through October 28. Review our schedule of events and create your own itinerary!

Monday, October 24, 2016

Copyright and Creative Commons: How They Work Together for Open Access

11:30 a.m. -12:30 p.m.

RT 502 (Michael Schwartz Library, 1860 East 22nd Street)

Presenter: Glenda Thornton, Director, Michael Schwartz Library

Have you ever wanted to use someone's intellectual property but didn't know how to get permission? Or, have you ever wanted to freely share your own intellectual property but didn't know how? Well, there are millions of people out there who do freely share their creations with others by using Creative Commons licensing on their copyright materials. Come to this workshop to learn both how you can freely share your intellectual property and use intellectual property that has been licensed with a Creative Commons license. Bring your lunch to this session!

Tuesday, October 25, 2016

EngagedScholarship @ Cleveland State University at TechFest Day 2016

10:00 am – 2:00 pm

CSU Student Center Ballroom, SC 311, SW Corner

Meet with EngagedScholarship @ Cleveland State University experts to learn about posting or publishing your scholarship and create your own scholars page in SelectedWorks. Our live Readership map will demonstrate how researchers across the world are accessing the work of your colleagues! No cost to attend. CSU ID is required for admittance to TechFest.

Wednesday, October 26, 2016

"To Publish or not to Publish: That is the Question" EngagedScholarship @ CSU Provides the Answer

2:00 pm – 3:00 pm

RT 502 (Michael Schwartz Library, 1860 East 22nd Street)

Presenter: Richard Klein, Urban Studies

Dr Klein will discuss the trials and tribulations facing many academic writers within today's competitive world of print publishing, and how online publishing venues such as EngagedScholarship @ CSU with their highly competent librarians and equally efficient staff help to measurably lessen the burdens often attributed to such publishing efforts.

Tour of 3D Printing Lab

2:00 pm – 3:00 pm

Fenn Hall, Room 424, 1960 East 24th Street

3D Printers (and their users) can take advantage of open access designs. Tour the Mechanical Engineering department's 3D Printing Lab, hear from an engineering student about how the technology works and how it's used, and see a 3D printer in action. Enjoy cookies made from a custom-made cookie cutter. Please email b.c.richards@csuohio.edu to register for this free event!

Thursday, October 27, 2016

EngagedScholarship @ CSU Ask the Experts

10:30 a.m. – 11:30 am

RT 502 (Michael Schwartz Library, 1860 East 22nd Street)

EngagedScholarship @ CSU is the University's open-access, digital repository. It promotes discovery, research, cross-disciplinary collaboration, and instruction by collecting, preserving, and providing access to scholarly work created at CSU.

EngagedScholarship @ CSU experts Marsha Miles and Barbara Loomis will be available to answer questions about creating your own Scholars page and publishing journals, reports, conference proceedings, primary source materials, and relevant documents. Or make an appointment by emailing library.es@csuohio.edu.

Digital CSU Methods Working Group Meeting

11:30 am – 12:30 pm

RT 502 (Michael Schwartz Library, 1860 East 22nd Street)

Presenters: Shelley Rose, History, CSU
Robert Shelton, History, CSU

Digital CSU is a low-stakes environment for faculty, staff, students, & community members to discuss digital methods in research & teaching. Included on the agenda is Christopher Rennison, Senior Instructional Technologist, Cleveland State University, who will present "Augmented Reality." For more information about Digital CSU, visit

Affordable Textbook Alternatives Workshop

2:00 pm – 3:00 pm

RT 502 (Michael Schwartz Library, 1860 East 22nd Street)

Presenter: Glenda Thornton, Director, Michael Schwartz Library

We are all concerned about the rising cost of higher education but often may not know what we can do as individuals. Faculty want to assign the best quality textbooks possible for their students, but they know that some of these materials are very costly. In this workshop, faculty will learn how to find and use openly licensed quality educational resources that are free to students. In many cases these resources can be adapted to the individual instructor's class and, because they are freely available, students will have the needed resources the very first day of class. What a great way to help students improve classroom performance!

All Week!

Information Table

1st floor (near the elevators) Michael Schwartz Library

Visit our Open Access Week information table from October 24 - October 28, 2016. View the live Readership Activity Map, sign up to win an open access t-shirt, enjoy free cookies, and more!

Register for an ORCID account

Reference Desk, 1st floor east, Michael Schwartz Library

Visit the Reference Center during Open Access week to register for an ORCID account and receive your own persistent digital identifier that distinguishes you from every other researcher. An expert Reference Librarian or Consultant can help you register in minutes!

SUNY FREE WEBINARS (Monday – Friday)

SUNY Council of Library Directors (SCLD) has recruited a group of talented and engaging speakers to provide perspectives on why Open Access is such a **critical issue for higher education** and scholarly publishing. Faculty, librarians, staff, and students are invited to join the conversation, learn about open access, and have your questions answered. Webinar details and Free Registration: <http://commons.suny.edu/openaccess/>

Now in its tenth year, "Open Access Week" facilitates the growing movement toward increased discoverability, sharing, use, and preservation of information.
