EngagedScholarship@CSU promotes discovery, research, cross-disciplinary collaboration and instruction by collecting, preserving and providing access to scholarly work created at CSU. The repository also provides access to journals, reports, conference proceedings, student scholarship, and relevant documents created by administrative offices, departments and programs. Members of the Cleveland State University academic community are invited to contribute completed scholarship for long-term preservation and worldwide electronic accessibility. EngagedScholarship@CSU is generously funded through the Provost's office and is a service of the Cleveland State University Libraries.
